## AIM

Our aim is to impart Nursing Education of High Standards to students which will enable them to render Quality Nursing Care to all the clients in the hospital, community and various settings such as school, industry with compassion and care.

## The Lady with the Lamp “Glow of hope.”

FOUNDER OF MODERN NURSING

### Florence Nightingale

(12<sup>th</sup> May 1820 - 13<sup>th</sup> Aug 1910)

Florence Nightingale, born on 12<sup>th</sup> May, 1820, into a rich, upper class and well connected British family at Villa Columbia, near Porta Romana at Bellosguardo in Florence, Italy and was named after the city of her birth.

A year later she joined the Institute for Protestant Deaconesses at Kaiserswerth in Germany and from thereon she moved to a hospital in St. Germain, near Paris, run by the Sisters of Mercy.

An Anglican believed that God had called her to be a nurse; Florence announced her decision to enter Nursing in 1844.

In March 1854, Crimean War broke out. Russia invaded Turkey, Britain and France, concerned about growing power of Russia, went to Turkey's aid. The wounded soldiers, crowded into unsanitary ships, came from Crimean Peninsula on the other side of the Black Sea to the Barrack hospital in Scutari, Turkey.

She came to prominence for her pioneering work in Nursing during the Crimean War. On 4<sup>th</sup> Nov, 1854 Florence and 38 nurses entered the Barrack Hospital in Scutari and found the hospital to be filled with sufferings of the soldiers awaiting them.

Florence Nightingale is the founder of Modern Nursing. She was called “The Lady with the Lamp” As she would take night rounds in the ward which stretched 4 miles.

Florence Nightingale was an innovator in the collection, tabulation, interpretation and graphical representation of descriptive statistics. For her contributions to army and hospital statistics, Florence Nightingale became the first woman to be elected as a Fellow of the Royal Statistical Society.

*“What comfort it was to see her pass. She would speak to one, and nod and smile to as many and more; but she could not do it to all you know. We lay there by the hundreds, but we could kiss her shadow as it fell and lay our heads on the pillow again content.”*  
A soldier in the barrack hospital

Cecil Woodham Smith stated that “Two figures emerge from the Crimea as heroic, the soldier and the nurse. In each case a transformation in public estimation took place and in each case the transformation was due to Florence Nightingale.”

The first secular Nursing School established a Nursing School at St Thomas, London in 1860.

Florence received many honours. She was invited to Windsor by Queen Victoria to receive The Royal Red Cross in 1833.

Finally the indefatigable Miss Nightingale faded. She grew weaker and weaker and on 13<sup>th</sup> Aug, 1910, at an age of 90 she fell asleep never to wake again

# Nurses Pledge

*I solemnly pledge myself before God and in presence of this assembly to practice my profession with dedication.*

*I will serve mankind with love and compassion, recognising their dignity and rights irrespective of colour, caste, creed, religion and nationality. I will endeavour to maintain up to date knowledge and skill to uphold standard of Nursing care to individual, family and community in all settings and in all aspects of holistic care as a member of the health care team. I will hold in confidence personal matters of my clients committed to my care and help them to develop confidence in care rendered by me. I will refrain from any activity that will harm my personal and professional dignity as a Nurse. I will actively support my profession and strive towards its advancement. I will fulfill my responsibilities as a citizen and encourage change towards better health.*
